

Network System Controller

OVERVIEW

The MRX-5 is a high-performance network controller. It is an excellent choice for up to 4 rooms in both residential and commercial systems. The MRX-5 combines the best of Total Control Accelerator 3 Expressway with the power of a smart sized processor and works with a family of URC user interfaces.

- Primary processor for IP, IR and RS-232
- Program using Total Control Accelerator 3 Expressway to control compatible, third-party devices
- Stores and executes simple control and automation commands
- Capable of off-site programming and off-site control
- Integrates with Amazon Alexa and Google Assistant for voice control
- Features Total Control front panel with LED lighting
- Easy hideaway with wall mounting
